Pabloarevalo seeks guitarist, indie band

02 Sept 16

Pabloarevalo are a trio (bassist, drummer and vocalist / guitarist / keyboardist), around 25-35 years.

We like post-punk / new wave music with an 80's sound, and enjoy cool bands like:

- the Cure
- the Chameleons
- White Lies
- **Party Day**
- the Sound
- For Against
- Joy Division and many more.

As a three-piece, we've been together for several months. This is a serious project, with songs written and ready to record and gig.

We want to add a second guitarist.

Contact Pablo Ensayos 695270739, on Tuesday or Thursday afternoons in the airport neighbourhood / Canillejas.
