# The Top 100 Greatest Post-Punk Albums by Secondsoul (2014)

< View previous chart

View next chart >

Post-punk is my favourite genre probably cos I grew up with it as a kid at school in the late 70s/early 80s. Post-punk became the focus of the 80s indie and alternative music scene and has influenced so many artists even today. I will do a post-punk revival chart soon that will include bands like The Strokes and Interpol. This chart though will feature albums that were released between 1977 and 1985. I have limited this chart to a maximum of two albums per artist so as to give exposure to more of the great bands that graced this period. And apologies for not including The Smiths. Yes, some of their tracks were undoubtedly post-punk but their first two albums that were released during this period were for me more alternative rock or indie pop!

Chart updated: 08/21/2014 23:15 (Created: 08/21/2014 22:52). Chart size: 100 albums.
